

2017-18 CITY-WIDE SIDEWALK IMPROVEMENT PROGRAM

CRITERIA USED TO IDENTIFY HAZARDOUS SIDEWALK FLAGS

ELEVATION DIFFERENCE

An elevation difference between flags of 3/4" inch or greater will be ground or replaced

HOLES

A hole that is 2 inches or greater in diameter & 3/4 inch or greater in depth

CRACKS

A flag that has any crack will be replaced regardless of width or length

SURFACE SPALLING

Surface spalling (a chipping away or crumbling of the surface) equal to 25% or more of the flag surface
