DEPARTMENT GOALS AND OBJECTIVES ANALYSIS

Reference CALEA Standards 15.2.1, 15.2.2

The Department reviews and updates our written Department Goals and Objectives, Mission Statement and Values Statements on an annual basis. This review constitutes the Department's system for evaluating progress made toward attaining the stated goals and objectives. A group comprised of all Department supervisors and the presidents of both employee unions conducted a comprehensive review at the end of 2018. The review led to minor language and terminology changes being made. Otherwise, the Goals and Objectives remain unchanged and accurately reflect the Department's direction at this time.

It is important that all employees and community members know and understand our Goals and Objectives, Mission Statement and Values Statements. To that end, all employees receive written copies and receive training from Department supervisory staff members. Community members may access these documents on our Department website.

PERFORMANCE EVALUATION PROGRAM

The analysis included an evaluation of each of those categories as well as all practices, policies, procedures and documents associated with the system. We concluded that the current system meets or exceeds all best practice standards finding no need for significant changes.

The following summaries describe Department conduct and performance in each of the listed categories.

USE OF FORCE ANALYSIS

Reference CALEA Chapter 4

In 2018, seven (7) uniformed officers submitted Use-of-Force Reports covering seven (7) separate police incidents. Immediate supervisors and the Director of Public Safety reviewed and approved all use-of-force incidents. There were no complaints filed regarding use-of-force incidents. Formal reviews found all use-of-force incidents in compliance with established Department policies and procedures. The review identified no trends or patterns suggesting misconduct by individual officers.

In addition to a review of individual incidents, Department administrators reviewed all policies, practices, procedures and training requirements related to the use-of-force. Special consideration was given to the dates & times of the incidents and the types of encounters resulting in force application. In addition, the data was analyzed in an attempt to identify trends or patterns of; 1) force application related to race, age and gender of the subjects involved and 2) force application resulting in injury to any person(s) including Department personnel (none reported). We concluded that our use-of-force policies and procedures are consistent with best practice standards. There are no apparent identifiable trends or patterns based on the data collected/analyzed and it appears as though there is no need to modify or equipment or training at this time.

The following chart provides detail of the types of force reported during 2018.
